

## Countdown is on

With less than a week until the doors of the Harrogate Convention Centre open on your favourite industry trade event, the Harrogate International Nursery Fair team is putting all of the nuts and bolts into place to present you with another outstanding show for 2023. Here is another brief taster of some of the great products you can expect to see.

### Design comfort

Avionaut is a European brand that designs and produces car seats and accessories in Europe that make traveling with children easier. Safety, comfort and functionality - these are the ideas that guide it. To provide the highest possible protection, in the production process of Avionaut seats the company follows an engineering approach and uses modern technologies and materials. When developing prototypes of its projects, it cooperates with specialists in the field of physiotherapy. All this to ensure that Avionaut seats provide children with a correct and stable position while driving (this is important for the health of the spine!) and full comfort.

### Hand-sewn

Kockymania is a brand created with comfort and convenience for children in mind. It does everything to make its products pleasing to parents and safe for babies, so use only certified fabrics and everything is sewn by hand. Every day the company puts a lot of heart and energy to create things that can at least a little improve and beautify the parent's and baby's world. In Kockymania's offer you will find an assortment of products for the newborn (bedding and nests), accessories for parents (birthing bags, cosmetic bags, baskets with welt) and room accessories (stickers and posters).

### Distinctively charming

Excitement fills the air at Tutti Bambini as the company's team prepares for an eagerly anticipated event! They are thrilled to unveil a captivating lineup of products seamlessly blending modern aesthetics with unbeatable functionality. Step into its booth and discover beloved classics like the CoZee bedside cribs

and Nova highchairs, alongside an extensive range of bedding and accessories crafted from top-tier materials. It is also introducing four new furniture ranges, each with a distinctive and uniquely charming style that is yet to grace the market.

Join them for a toast with sparkling refreshments to reconnect, forge new partnerships, and champion its unwavering commitment to exceptional baby care.

## **Sealed lips**

Doona should be on everyone's 'must-see' list at Harrogate – but don't expect the products to be centre stage on CuddleCo's stand, as everything will be behind lock and key this year. The new products will be kept in a room and available to view by appointment only!

Also, Junior Jones – building on the successful launch of the Aylo Stroller, CuddleCo is excited to be previewing two new special editions at the show. As well as exhibiting newness across furniture, one highlight is the slightly more grown-up rattan furniture range that wouldn't look out of place in an older child or teenager's room, giving it life beyond the nursery. With the trend showing no signs of slowing down, it's a 'must' look.

## **So fluffy**

Naturally Sheepskins baby products are crafted from genuine sheepskin. The company carefully selects its sheepskins for their soft wool, quality, density, colour, natural markings, uniformity, size and just general sumptuousness. Its baby products include a range of sheepskin pramliners, sheepskin baby rugs, deluxe stroller mittens and merino sheepskin footmuffs, all in a range of colours. Customers receive only the finest of sheepskins with silky softness for their homes and personal use. Over the years, the company has worked tirelessly to provide only high-quality, 100% natural products which have numerous health benefits.
