

Easy ride

Harrogate International Nursery Fair is simple to reach driving from London as you can jump onto the M1 and stay there pretty much until you arrive at your destination, however for those who prefer not to travel by car there are several alternatives. There are regular trains from London to Harrogate via either York or Leeds which will take less time than driving – around 3 hours. However, many of you may not be aware that you can now fly from London Heathrow to Leeds Bradford airport for just £47 each way with British Airways. The flight takes just over an hour and with regular buses from the airport to Harrogate makes a quick and affordable option for many retailers travelling from the south of England.

Don't forget to register online at www.nurseryfair.com for free entry to the show! Full details of exhibitors, show times and where to stay are also on the website. We look forward to seeing you there!
