Birth to 12 years

Jané– the award-winning innovative baby goods brands – has created what it believed to be the world’s first ever iSize car seat suitable for new-born babies right up to the age of 12. The Groowy

grows with baby adapting to the various key stages of a child’s development. This means parents no longer need to buy three seats to cover the three key growth stages. The Groowy Nest fits all Jané pushchairs and other brands of pushchairs with Maxi-Cosi or Multi Car Seat fixing points.
