

International event

Whilst it's the only UK nursery trade show, Harrogate International Nursery Fair offers a truly international event. This year as well as numerous exhibitors from around the UK we also welcome companies from Bulgaria, China, Denmark, Germany, Lithuania, Norway, Poland, Sweden and the USA. The show offers the perfect opportunity to view some of the best baby products that the world has to offer and a one-stop-shop for all of your retail requirements. A full visitor list is available on the website at www.nurseryfair.com

Super stylish

The award-winning Little Hoppa 3 in 1 wooden bouncer is a super stylish, multi-functional toy that grows with your family. The system has three activity stages: a baby gym, a baby bouncer and an activity table, that take you from newborn to pre-school. Made of sustainable wood and with a high-quality finish, it's an ideal alternative to plastic toys.

Leg comfort

KneeGuardKids will be showcasing an innovative car seat footrest, accessory designed to provide optimal leg support for children during car journeys. It features an adjustable height and angle, ensuring a comfortable, ergonomic seating position that promotes proper posture and prevents leg discomfort, especially on long trips. By supporting the child's legs, it reduces pressure on the lower back and prevents dangling legs, which can cause strain and fatigue. The footrest is compatible with most forward-facing car seats, easy to install, and enhances both safety and comfort. It's the perfect solution for ensuring a more enjoyable and stress-free travel experience for kids.

Carry light

CARIFIT+ is one of the world's first baby carriers designed to make a baby feel physically lighter, making it an ideal choice for comfort everyday. Crafted from sustainable, lightweight sports fabric, it delivers the perfect mix of support, stretch, and breathability for both parent and little one. Combined with CARIFIT's parenting support app, the Carifit+ enhances the babywearing experience, enabling parents to stay active, whether that's a walk to the shops, a hike with the kids, or a Carifit baby wearing workout, in complete comfort.

Safety support

The Office for Product Safety and Standards is the UK's national product regulator, within the Department for Business and Trade. Its purpose is to protect people and places from product-related harm, enabling trade and growth by ensuring consumers and businesses can buy and sell products with confidence. Created in 2018, it is responsible for the regulation of most consumer goods excluding food, medicines, and vehicles. Regulations are applied across the product lifecycle from design and manufacture through to labelling, supply, end use and safe disposal.

Office for Product
Safety & Standards

The Office for Product Safety and Standards team will be available throughout the show to offer any product safety related business support.
